THE Gleichen Call

SEVENTEENTH YEAR, No. 6 | GLEICHEN, ALBERTA, WEDNESDAY, MAY 9 1923 | Subscription $2.00 a Year

DISTRICT AND LOCAL

All ready for May 24th.

S. A. Hall is now located on Henderson & Mallory's ranch, where he can be seen at any time.

It is up to us to push the May 24th celebration and not loose the agricultural greenish by default.

Mrs. D. Campbell of Delia and Mrs. Jas. Campbell of Hanna visited their niece Mrs. G. W. Evans last week.

And once more the Town Council is after mild-eyed bossie, and some good gardens may be anticipated.

Saturday's night's fall of the beautiful caused many a farmer to smile, who had almost forgotten how.

Miss B. Buckley has returned from spending her second term at the Edmonton University to spend her vacation at her home here.

"Nothing doing" yet in the way of fixing up the cemetery. Evidently our "silent city," may ever remain so.

Dr. Bowles took Mrs. Canteloon to the Bassano hospital one day last week where he operated on her for appendicitis successfully, and she is now recovering nicely.

Quite a number of Gleichen people visited Calgary last week to enjoy the excellent show "Dora Bella" given by the Grand Theater, and it was worth the trouble and expense.

Bert James returned last week from spending his first term at the Alberta University in Edmonton. It seems to have enjoyed it all and by young friends here are glad to see him looking so well.

Mrs. L. Michael accompanied Mr. J. Walls to Calgary last Friday where she entered a hospital for medical treatment for spring. Mrs. Michael returned home Sunday and Mrs. Walls is expected back within a day or two.

L. Michael has been a very busy man the past week showing the new Oil Bath Windmills to the many interested in this connection. It also a Magic Baby Scale born plaintiff that he invites inspection of.

The marriage of Mr. S. McMann of Cluny to Mrs G. Nelson of Milo is announced to have taken place recently and the happy young couple are receiving the congratulations of their numerous friends.

After an absence of 43 years Mr John Finnigan is now visiting his old home at Kingston, Ontario, having left Gleichen last Friday. That is a long time to be away from home and no doubt Mr. Finnigan will see some wonderful changes in the east. He expects to be absent about two months.

Between our Queenstown correspondent and the Call many we made a rather bad mistake last week and announced a young lady married to the wrong gentleman. Naturally the bridegroom was very indignant, and we hasten to offer most sincere apology, and at the same time extend to the happy couple best wishes for a long, happy and useful life.

During Saturday night a good two inches of wet snow fell in the district preceded by rain, which was greatly appreciated by our farmers and everyone else. It has done an immense amount of good and will give a fine start to all grain and other crops sowen. The moisture was so great in some parts that a few farmers were obliged to quit all work on the land Monday, but by Tuesday all were hard at work again.

The different interests on the vote to be taken on the liquor question are lining up their forces and from reports the hotel men have decided to join forces with those favoring government control, which will reduce the fight practically to two sides. That of government control and prohibition as we have it today. It is anticipated that there will be a "hot" times from now until the vote is taken on Nov. 5th.

GLEICHEN EMPIRE DAY SPORTS

THURSDAY, MAY 24

The committee in charge of the sports for Thursday, May 24th, have been hard at work the past week making preparations to make this one of the best day's sports held on the agricultural grounds, and intend to leave nothing undone to make this a real old-time day of fun for one and all.

The object in view could hardly be more deserving or desirable one, namely, to use the entire proceeds in paying for the Agricultural Association grounds. Everyone interested in maintaining these grounds for recreation is requested to help the committee and boost Empire Day sports.

The following is the sports program to begin at 2 p.m.

Baseball Game.

Barrel Tarring Race.
Tug-O-War. G. W. V. A vs Board of Trade.
Girls and Boys Pony Race.
Climbing Greased Pole.
100 Yards Dash.
Girls Race.
Tug-O-War. White Farmers vs. Indian Farmers.
Half Mile Horse Race.
Boy Scouts Relay Race
Quarter Mile Horse Race.
Final Tug-O-War.
6:30 p.m. Baseball Game.
9 p.m. Dance.

Cash prizes will be offered

An effort is being made to put on a baseball match between the girls of Standard and Gleichen, which undoubtedly will be a very attractive feature.

GLEICHEN WOMEN'S INSTITUTE MEETS

TUESDAY, MAY 22

The regular meeting of the Gleichen Women's Institute will be held next week earlier than usual this month in order that the delegates appointed to attend the annual convention to be held in Edmonton may attend. The next meeting will be held at Mrs. McCullough's residence at 8 p.m. sharp on Tuesday, May 22, when it is hoped a full attendance of members will be present. The roll call will be in response to reading our children of the school". Miss Colton Cuthbert has kindly consented to give a sketch of Queen's Victoria's life. It is hoped this will be one of the most interesting meetings of this year.

JOHN KINGSBOROUGH PASSES AWAY

Last Friday morning, May 4th, at the ripe old age of 75 years John Kingsborough passed away at the farm home of his nephew Mr. E. A. Patterson, at Arrowood, after an illness of a few days, although he has not been enjoying very good health for some months past. The funeral took place Sunday afternoon, the remains being accompanied to Gleichen by a number of relatives and friends, where a goodly number of town people met at the United Church, when the Rev Pate conducted an impressive service after which the remains were followed to the Gleichen cemetery for interment.

The aged gentleman was born at Inverness, Megantic County, Quebec, on Sept 24th, 1847 and was a veteran of the Fenian raid. He came to Gleichen about 14 years ago and lived retired, being a successful farmer in he east. Of a very kindly, unassuming disposition, he was not very widely known, yet he was highly respected and esteemed by all who knew him.

The deceased was a life long member of the Orangemen.

He is survived by one brother, David, who resides at Gleichen, and three sisters, namely, Mrs. H. Patterson and Mrs. Thos. Leadbeater, both of Gleichen, and Mrs. Hodge of Woodville, New Hamshire, having survived three brothers and one sister who died some years ago. Mrs. Geo. W. Hunter is a niece of the departed one, as also Mrs. Geo. Dawson.

The pall bearers were Messrs. E. J. H. R. and E. H. Patterson and Warren Leadbeater all nephews, Rupert Hunter, great nephew, and Mr. Wm. H. Richards, of Calgary, one of the deceased's greatest friends.

The floral offerings were most beautiful among which were noted one from the family ahother from Geo W. Hunter and family and one from the Buffalo Hills U. F. W. A.

The immediate relatives desire through the colums of the Call to express their most sincere thanks to their many friends, who have rendered them so many kindness in their hour of sorrow and the genuine sympathy expressed over the death, illness and departure of the good kind gentleman.

The Call's job department is replete in every particular and turns out first class work. Send along your letter heads, billheads business cards etc., and we will give you good work at reasonable prices.

ALTON SCHOOL NOTES

A most interesting and instructive meeting was held in the school last monday night, when Rev. John Pate gave one of his pictorial travelogues. The school was crowded to its limit, practically all the pupils present from Shannock and Craigmiller communities. The entertainment was a great success. The pictures shown were of a highly educative nature and the attention of old and young served to show their appreciation of the work of the lecturer.

Arrangements have been made to commence a joint community service for the districts of Alton, Shannock and Craigmiller on Sunday next. The services will be conducted by the Rev. John Pate.

Services in Alton School, on Sunday next at 3 o'clock. Everybody made welcome.

MOUNTAINS AND VALLEYS ALONG SKEENA RIVER THE MOST WONDERFUL

The changing panorams of mountains and valleys along the Skeena and Bulkley rivers of British Columbia attention as areas of supreme scenic grandeur unfold themselves as the train skirts valleys and rivers, or winds around mountains, bringing to view quaint Indian villages, with totem poles of the tribes, or here and there salmon canneries or mining towns. Interest alternates rapidly along this portion of the Canadian National Railways. Bulkley Gate and Bulkley Canyon are features of great interest, whilest the Bulkley valley is characteristized by its wealth of agricultural land, comprising the fertile valley of Central British Columbia.

WOULD TAKE A HAND IN THE THRESHING

(The Call does not hold itself responsible for the opinions fo any of our correspondence.)

Editor Call:

A read of the atrocity perpetrated on poor Martin Talbut in your paper with extreme horror, and I would like to hold Higginbotham's neck with my boot whilst Mr. Bogtie threshed him within an inch of his life. But Chivers is also to blame for not interfering, also the Lumber Co., and lastly the U.S. Government. We hear a lot of people upholding and approving so people applauding and upholding the government to the South of us, but it is inconceivable to think that a case of this nature could have happened in what is called a civilized country, or even under British institutions.

Yours truly,
BRITISHER.

GLEICHEN DISTRICT AGRICULTURAL ASSOCIATION NOTICE

The owners of any cattles or horses found trespassing upon the grounds of the above society will be prosecuted under the provisions of Section 39 sub section (d) of the Domestic Animals Act.

Dated at Gleichen this ninth day of May, 1923.

Signed by the Grounds Committee,
J. H. WRIGHT
W. F. FERGUSON.
WM. PINDER.

ARROWOOD BRIEFS

(BY C. C. WALKER)

Kennett I. Lyle has taken up his duties as director of the Trygo school.

* * * * * * *

N. W. McCulley received the sad news of the death of his brother in Sherbrooke, Quebec, last week.

* * * * * * *

It must not be forgotten that alcohol is more than a cause of degeneracy; it is also a symptom.

* * * * * * *

Miss L. Donnota Turner, having turned in her resignation as instructor of the primary department of the Arrowood Consolidated School, the the board of education has employed Miss Morton of Calgary, as teacher and accomplished musician, who will take up her duties June 1st.

* * * * * * *

The Buffalo Hill local of the U F W A met at the home of Mrs. Geo. Leith, Friday afternoon. Visitors who were present expressed themselves as having had a fine afternoon and informed the correspondent that they found a well organized local which seems to be carrying on an efficient work. There were 18 members and five visitors present. The organization now has a membership of twenty-four. Their meeting is to be held with Mrs. Gaylen Jones the afternoon of Wednesday, May 16th All ladies are cordially invited to attend.

* * * * * * *

A fair sized gathering, considering that now the farmers are busy with their crop, was out to the U F W meeting and program as held at the Arrowood Consolidated School, Friday evening. A personal letter to the local from E. J. Garland, M. P. was read and other business such as co operative buying by the local of supplies such as posts, binder twine, fruit etc., was discussed and committees appointed to investigate, as well as to take orders and make arrangements for the delivery of the goods. It is quite likely that a second carload of fence posts will be ordered from the growing district in B. C. within a few days. Any of the members of the local who were not present at the meeting still have the opportunity of giving to M. H. Ward or R. F. Williams their order for the number needed.

Following the roll call and the business end of the meeting, Miss Clara Adams entertained the audience with a few of her ever-popular piano solos, following which three members of the Calgary Normal School Quartette viz. Messrs E. G. Lyle, Solon Lowe and K. I. Lyle, made their appearance upon the stage and entertained the audience in a very efficient and well appreciated manner, with folk songs, comic hits and piano solos as well as pieces of the more classical nature. One of the selections which took best with the audience was "My Bonnie Lies Over The Ocean," the latter and most impressive part of which was of modern wording than the music itself. A vocal compositon "The Old Grey Mair," which one of the musicians introduced as being a composition from the hand and heart of Paul Norton also took quite well. Mr. Norton seems to be one of the most active men in the community; his present work including agriculture and scientific methods of living, as well as his newer work along the line of "classical" music.

TWO PHONES 13 and 46 | "VALUE WITH SERVICE" | FOUR DELIVERIES 10.30 & 11.15 A.M., 4 & 5.15 P.M.

PLEASE NOTE HOURS OF DELIVERY

HOW is BUSINESS?

This is the question you hear asked so much. We do not know anything about any other firm in town. We do not want to. We are busy with our own affairs, but we just cannot help telling you the last Saturday in April was the largest we had since Xmas, and last Saturday just went over the top some twenty-five per cent. more.

After two months of faithful effort we are fully convinced that there are sufficient people in this Gleichen district who will pay their accounts promptly every month and do their buying at home if the merchant will do his part and sell his goods at a fair and reasonable margin of profit. When we make a special purchase we pass on the the savings to our customers.

LADIES UNDERWEAR

The demand is for tailored garments. These are a very fine gauge and wonderfully polished. Made in opera and sleeveless styles.

Vests 65c and 90c each
Combinations $1.15, $1.35, $1.85

PLEASE NOTE—These garments are made of extra fine thread. Sixteen to the inch. Ask to see them and when you are in need you will know where to buy.

COLORED TUKISH TOWELS

Never have we shown such values. These are a brand new shipment. We have marked down the lines we had in stock 20 per cent. to be equal in value.

Medium Size 25c each
Regular Size 50c each
Large Size 75c each

LADIES SHOES

Strap Slippers and Oxfords are all the go. Low heels and fancy stitching. Patent Leather is new and much in demand.

$4.75, $5.50 and $6.50

If you require a real wide house or street Oxford, Rubber Heel E E width, nice soft kid at $4.75 a pair, we have them.

WHITE COTTON SHEETING
2 Yds. Wide

Nice even thread free from dressing and a good wearer.

75c Yd.

MEN'S COLORED HANDKERCHIEFS

Large size 22x24, in blue adn red. Heavy quality and just ten cents each better value than we have been selling.

New Price 25c. each

TWO GALLON CROCKS 40c. EACH

We bought all we could get this time but only 29 in all.

Buy your requirements for the year We will have no more at this price.

WATER GLASS

This is the best month to put your eggs down in Water Glass. We have Guaranteen Water Glass in stock.

1lb tins 20c
2lb tins 35c

RED ROSE COFFEE
For particular people

Are you one of the "Particular People"? Then you will surely be charmed with RED ROSE— It is truly a "particular" coffee. 7C

A Disappointing Announcement

Hon. Charles Stewart has made his long and eagerly awaited statement to Parliament outlining the immigration policy of the Dominion Government. That statement has, however, signally failed to arouse any enthusiasm either in Parliament or throughout the country: in fact, taken on the whole, it has proved a grievous disappointment to all who were expecting real action in regard to this subject which is admittedly of such vital importance to the future development and prosperity of Canada.

The lengthy delays before the Minister's announcement had given rise to strong hopes that a far-reaching and comprehensive immigration policy was being evolved. These hopes have been dashed, because there is nothing new, original or vigorous in the plans laid before Parliament; on the contrary, the policy outlined is so timid, and so palpably follows the lines of least resistance, that it has called forth strong criticism from even the staunchest of Liberal newspapers and outspoken opposition from Government supporters in the Commons.

No one will attempt to deny the truth of Mr. Stewart's statement that anyone who could formulate an immigration policy for Canada that would be satisfactory to all people would need to be a second Moses. Mr. Stewart talks optimistically of securing 200,000 immigrants for Canada this year, but if that number is achieved it will be, not because of the Government's plans, but in spite of them and because people cannot be wholly kept away from Canada.

And, after all, what are 200,000 new settlers in a country of Canada's immense area and almost incalculable wealth of undeveloped natural resources, and which is now about the least thickly populated country in the world? Two hundred thousand additional people can be absorbed in Canada almost without being noticed, especially as it is an admitted fact that this Dominion loses tens of thousands of people annually to the United States. This Dominion should aim at receiving 200,000 from the British Isles alone, and as many more from all other countries combined.

At a time when Australia is getting thousands of British settlers under the Empire Settlement scheme, the Canadian Government hesitates to adopt a really effective policy whereby this Dominion would receive its full share of immigrants from the Old Country. Instead, the Government seems to place its chief reliance in the Canada Colonization Association. Granted that the Government should utilize to full advantage any and all reputable agencies for the obtaining of settlers, such as the Association referred to, the C.P.R., Canadian National Railways, and the Empire Settlement scheme, these should be but auxiliaries to the main Government effort.

Apparently the short sighted attitude adopted by the leaders of organized labor on the question of immigration is largely responsible for the weak-kneed attitude of the Government. Labor, as has been repeatedly pointed out in this column, is standing in its own light. No sane Canadian desires to see wages reduced in Canada below that which will guarantee to the worker not merely a decent but a good standard of living, but the fact remains that the average Canadian is not prepared to do the "rough" work which is required to be done in order that raw materials and means of transportation shall be available for our industries, and without such class of labor, Canada's resources must remain undeveloped and her industries lanquish.

Furthermore, just so long as this class of labor is lacking, and wages remain at or close to the peak reached during the abnormal war years, costs of production and transportation must remain so high that the average resident cannot afford to purchase as freely as he otherwise would. The inevitable result is decreased sales, smaller production, and unemployment, and the greater the unemployment, the smaller the sales and the lower the production. A return to more normal conditions—which a large volume of immigration would assist to bring—would mean an increase in the purchasing power of the dollar, and even with a somewhat lower wage, the workman would find himself better off, purchases would increase, industry revive, and employment become more general. But organized labor persistently refuses to recognize these economic truths, and deliberately closes its eyes to the fact that there is ever a point where high costs of production operate to curtail and even altogether stop production, which means unemployment. Surely it would be better to have all employed at a reasonable wage, than to have some workmen employed at exceptionally high wages in limited production and others in idleness because work cannot be obtained.

Nevertheless, the advocates of this shortsighted view appear to have the ear of the Government, thus bringing economic losses not alone on themselves but the whole country. The only bright spot in this immigration muddle at Ottawa is the unofficial announcement that a separate Department of Immigration is to be created, because it is only human nature that anyone appointed to that portfolio will be anxious to show results and justify his appointment. Perhaps, then, some life will be breathed into the dead bones of our national business of obtaining more, and many more people for this thinly populated Dominion.

Making Fur Out of Wool

Newly Invented Process is Reported From Australia

A newly invented process, whereby certain kinds of fleeces not well adapted to spinning can be manufactured into a rich, fur-like material, which is supposed to present a valuable hygienic advantage over skin furs for clothing because the material is mounted on a wool foundation, is reported by a consul general in Australia. The inventor claims that this material has an excellent appearance, that it is suitable for all purposes for which fur is utilized and for clothing where the utmost warmth, the least weight, and the maximum of protection are demanded.

The trouble with the man who knows nothing is that he is always the last one to find it out.

Learning from the experience of others is like getting money in a letter.

Size of Atoms

Striking Illustration is Used to Express Their Minuteness

If a diamond in a ring could be increased to the size of the earth, the individual carbon atoms in it would be only about as large as a tennis ball. This was one of the illustrations used to express the minuteness of atoms in the Truman-Wood lecture prepared by Sir William Bragg for a meeting of the Society of Arts in London.

It was pointed out that the combination of F-rays and the crystal had opened up a new field of research into the properties of atoms. Every crystal was in a way a long avenue down which we could look and see at the far end of it the most primitive groupings of the atoms.

When a man has had occasion to employ a first-class lawyer you can't convince him that talk is cheap.

You may lead a fool to talk, but you cannot make him think.

Eczema Covered Arms of This Healthy Child

Mrs. Alex. Marshall, Sprucedale, Ont., writes:—

"When my little son was three months old he broke out in sores on his chest and arms. We did all we could to heal those terrible sores, but nothing did him much good. Finally I ventured on a box of Dr. Chase's Ointment and kept on using it. At last we were rewarded by the steady healing of the sores, and finally he was completely relieved of them. He is now three years old, and has had no return of the trouble since."

Baby Marshall.

DR. CHASE'S OINTMENT

60 cents a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

Household Hints

Valuable Recipes For the Busy Housewife

Forecast Rhubarb Pie

2 cups rhubarb, ⅛ teaspoon salt.
1 cup sugar, ⅛ teaspoon nutmeg.
2 tablespoons Sun-Maid seedless raisins.
½ cup very fine bread crumbs.
Pastry for 2 crusts.

Cut rhubarb in ½ inch pieces, scald with boiling water, drain and mix with other ingredients in order given. Place in a pie pan lined with pastry, cover with upper crust and bake in hot oven about 20 minutes or until brown, reduce heat and cook 15 minutes longer.

Sugar Cookies

½ cup butter, ¼ teaspoon salt.
1 cup sugar, 1 tablespoon milk.
2 cups flour, grated rind 1 orange.
1 cup chopped Sun-Maid raisins.
2 eggs. 2 teaspoons baking powder.

Cream butter and add sugar slowly, creaming them together. Add well beaten eggs. Sift flour, baking powder and salt together and add to egg mixture. Add milk, flavoring and raisins. If dough is not stiff enough to roll, add more flour. Turn out on floured board and roll thin. Cut in fancy shapes and bake in hot oven 10 to 15 minutes. This makes about 36 cookies.

CAN THE DEAF BE MADE TO HEAR?

This question can be answered both ways. If the deafness is due to Catarrh, success is general if the sufferer persists in the use of Catarrhozone, and thereby drives Catarrh out of the system. Penetrating through the passages of the ear, the soothing vapor of Catarrhozone relieves the inflammation, destroys the Seeds of Catarrh and thereby allows nature to reassert herself. For Catarrhal Deafness, pain over the eyes, plugged nostrils and other symptoms associated with Catarrh, use Catarrhozone. You'll be more than pleased with the quick improvement in your condition. Two months' treatment. One Dollar, sold everywhere, or the Catarrhozone Co., Montreal.

Medical Men to Meet

Over one thousand members of the profession are expected to attend the annual meeting of the Canadian Medical Association, to be held in Montreal in June. A number of the most distinguished surgeons from Great Britain, the United States and Canada, are to be present.

SPRING IMPURITIES DUE TO POOR BLOOD

A Tonic Medicine a Necessity at This Season

Dr. Williams' Pink Pills are an all-year-round tonic for the blood and nerves. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these pills helps to enrich the blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite is often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions and boils—Dr. Williams' Pink Pills clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people dose themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but does not help the blood. On the other hand, Dr. Williams' Pink Pills enrich the blood which reaches every nerve and every organ in the body bringing new strength and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

Sold by all medicine dealers or sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Wonderful Muscular Power

Jewish Athlete Proves that He Can Bite Through Steel

That a Jewish athlete named Breitbart, 34 years old, 6 ft. 3 in. in height, and weighing 210 lbs., can bite through steel is vouched for by a medical correspondent of the Lancet.

Breitbart's performances astounded a committee of physicians, engineers, smiths and presidents of athletic corporations, who saw him sever with his teeth several iron and steel chains one-fifth of an inch thick; bend into a circle iron rods half an inch square, using his mouth as a fulcrum; bend over his head a rail four inches thick by two and a half inches.

The correspondent says: "The committee is satisfied that he accomplishes the tasks by means of extraordinary muscular power coupled with excellent scientific training and muscular energy."

Corn Grows Well in Alberta

That Alberta is eminently suitable for the growing of corn is demonstrated by experiments conducted by E. B. Doten of the Gleichen district. Last year, he reported having grown 90 acres of corn, harvesting more then 1,000 bushels of perfectly matured seed. This gave him feed for his hogs and other stock, leaving him a surplus for sale as seed.

Honesty never has to crown anybody in order to make a living.

Keep Your Hands Soft and White With Cuticura

The daily use of the Soap, with occasional touches of the Ointment, is very effective for keeping the hands soft and smooth. For red, rough or sore hands: On retiring bathe in hot water and Cuticura Soap, dry, and rub in Cuticura Ointment.

Soap 25c. Ointment 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lymans, Limited, 344 St. Paul St., W., Montreal.
Cuticura Soap shaves without mug.

U-Boat Seaplane Great Invention

Equipped With Wireless Can Fly 500 Miles Without Alighting

A submarine-seaplane, designed and built by the Germans, is understood to have worked satisfactorily in tests. The machine is said in Paris to be "one of the most disquieting inventions of German factories." The Americans required one of the first of the German craft a single-seater with a 50-h.p. engine.

The seaplane takes to pieces in small sections and fits into a water-tight metal tube which can be lashed to the deck of a submarine. The submarine can dive with it and carry out all evolutions.

The crew, it is claimed, can assemble the wings, fit them, and mount the floats in less than five minutes. The machine, which is able to fly 500 miles without alighting, is a direct result of the German submarine experts' desire to render sea commerce raids even more destructive than in the war.

Their idea is to free the big, ocean-going submarines from their "blindness" owing to their low position on the water, a disability which led to the destruction of so many raiders in the war. The little seaplane will act as the "eye" of the submarine in a commerce raid.

Equipped with wireless, the seaplane pilot will be able to scan a wide area of ocean and indicate to the submarine the locality of food ships and also of any war craft likely to menace it.

B.C. Hen a Winner

Only One to Reach Coveted 300-Egg Mark

The only hen out of the total of 11,579 competing in the Record of Performance "A" during the year 1921-22 which reached the coveted 300-egg mark was a single-comb White Leghorn owned by the University of British Columbia. Of the 23,526 birds which have been entered in the contest since its inception in 1919, only two, including the one already referred to, have laid 300 eggs. The second bird was also a Leghorn and made its record in Ontario.

Warships Scrapped By Great Britain

Speaking in London, Colonel L. C. Amery, First Lord of the Admiralty, said Great Britain had scrapped warships totalling 1,600,000 tons since the Washington conference, or with the ships in course of construction and auxiliary vessels she had scrapped some two million tons, including 35 battleships and battle cruisers, 83 destroyers, 95 torpedo boats and 101 submarines.

Scandinavian women are agitating for a reform in present marriage and property laws so that husbands would be prohibited from speculating, or squandering their money in any direction, unknown to their wives.

A Point of Resemblance

"That new man I hired reminds me of a steam engine." "Good worker, eh?" "No; good whistler."—New Haven Register.

A Corrector of Pulmonary Troubles.—Many testimonials could be presented showing the great efficacy of Dr. Thomas' Eclectric Oil in correcting disorders of the respiratory processes, but the best testimonial is experience and the Oil is recommended to all who suffer from these disorders with the certainty that they will find relief. It will allay inflammation in the bronchial tubes.

Canadian Richest Man

Frank Yeigh, a well-known lecturer of Toronto, in addressing the Canadian Club of Buffalo recently stated that the Canadian, per capita, is the richest man in the world, because his wealth is based on the tremendous natural resources of the country.

The Duke of York, whose approaching marriage is attracting much attention, has the reputation of being the humorist of the English Royal family.

TOOTHACHE Place a piece of cotton wool saturated with Minard's in the cavity. Acts as a counter irritant and gives quick relief.

MINARD'S "KING OF PAIN" LINIMENT

Ex-Emperor's Horse Sold

Hungarian Royalty Too Poor to Keep Court Stables

In consequence of public economies, the horses at the former court stables in Vienna have to go.

The white horse used by the ex-Emperor Karl at the Budapest coronation led a very quiet life there, being now seventeen years of age. During recent years it has had nothing to do, except to appear ocgasionaly at the state opera, where it was a favorite, owing to its mild, gentle temper, especially as Grane, in Wagner's "Dusk of the Gods," in which role it always behaved with admirable patience, despite the flames and the collapse of Valhalla at the close.

A Magyar count heard of its pending dismissal, and, feeling afraid that the faithful coronation animal might become the prey of some butcher, desired to acquire it in order to shoot it with all the solemnity due to such an historic creature. But he found the price prohibitive, and in his stead the Hungarian Government bought the animal, which has just been dispatched to the Magyar capital, where it will be allowed to finish its days in peace.

Does Away With Soundings

New Searchlight Has Been Used By English Pilot

The latest nautical invention now in use on a Newcastle pilot boat is a machine which throws a beam of light to the sea bottom allowing the depth of the water below the ship to be gauged. Soundings may thus be done away with.

The invention is of unusual importance since it may be usefully employed by the big liners in entering shallow waters.

The searchlight is worked through a hole in the lower part of the ship while an observation window is placed nearby through which the beam of light may be seen. A mirror is set at the end of a long observation tube running vertically through the ship to the bridge. By working a handle an officer can take any angle of the projected beam and by a single calculation measure the depth of the water below.

Business Outlook Good

Prospects Are Regarded As Very Encouraging

Experts who have recently made a review of Canadian trade report that Canadian business continues to improve in most districts, and prospects as a whole are regarded as very encouraging. Most of the leading wholesale centres are busy shipping out spring and summer merchandise, and a satisfactory number of orders are being received for later delivery. Surplus labor is being steadily absorbed, and the outlook in the building, iron and steel, paper and pulp, lumber, mining and other basic industries inspires much confidence in the future.

Her Error

Miss Gushly.—That last little thing you played was charming. I loved its wild abandon. Was it your own composition?

Violinist.—No, I was putting a new string on my violin.

Do Large Breaths Hurt? Is Your Chest Wheezy?

Proper treatment is a vigorous rubbing of the chest, neck and sore side with good old Nerviline. This wonderful liniment sinks into the tissues where the pain is seated and gives instant relief. That catch disappears, all sense of soreness goes quickly. Just try Nerviline for chest tightness, coughs, colds and soreness. It's a wonderful liniment, saves the whole family from numerous minor ills and should be in every home. Large bottles, 35c, at all dealers.

Research In China

Exploration Would Throw Light on Man's Early History

That China conceals some fascinating treasures is certain. There is for example, the great tumulus of T'sin-shi-Tuang-ti in Shensi. Into the labyrinthe recesses of this mound it is written that ten thousand workmen and a horde of slaves and wives were driven before the entrances were sealed. Together with these victims of a barbarous custom there was incarcerated much treasure, including a "sea of mercury." The primitive races of China have also left their remains, and once this field of research is explored it may be expected that flood of light will be thrown on much which at present is obscure in the early history of man.—Hong Kong Press.

Increase In Building

The value of the building authorized during February as indicated by reports tabulated by the Dominion Bureau of Statistics, was considerably higher than in the preceding month and also than during February, 1922. The 56 cities making returns issued permits valued at $4,744,478 as compared with $3,705,256 in January, 1923, and with $4,201,955 in February of last year. The increase in the first comparison was $1,039,222 or 28.0 per cent, and in the latter it stood at $542,523, or 12.9 per cent.

It is often a good thing for a man's peace of mind that he doesn't know what other people know about him.

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

THE CENTAUR COMPANY, NEW YORK CITY

Limitation of Armaments

France Will Fall in Line if Given Time

More than ten months is it since the United States Senate ratified almost unanimously the naval limitation treaty, which was one of the fruits of the Washington conference for the limitation of armament. Some four months later, Japan followed suit; then Canada, India, and the Union of South Africa assented to its provisions, and a few days thereafter Great Britain gave formal approval to them. And now Italy has gone on record as favoring its terms. France alone remains to act. And certainly that country will be heard from, to the satisfaction of all, "if it is given a little more leeway. It is easy to condemn, but it were well if a keener sense of forgiveness and mercy permeated the foreign relations of the nations of the earth.—Christian Science Monitor.

No Entries for Soaring Flight

Now Making Light Engine for Use by Gliders

So far no entry has been registered for the British prize of $5,000 for a soaring flight of fifty miles and expert opinion has been heard to express the view that it will not be possible to use gliders for travel across the country after the manner of the vulture and albatross. Attention is being turned to the possibilities of installing an engine of 20 horsepower in a glider and an aircraft company has produced a two cylinder air-cooled engine which weighs 85 pounds and develops 18 horsepower. An attempt is being made to interest pilots who cannot afford to keep a full-sized aeroplane in this new engine.

Japan's Supply of Quicksilver

Japan will soon be independent for its supply of quicksilver. A rich vein, said to extend seven miles on the surface and to vary in width from two to six feet, has been discovered. The ore assays 18 per cent. and the vein increases in thickness the deeper it is followed.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Fined For Harnessing Dog

Though dogs are used for drawing vehicles in many parts of the Continent, it is an offence in England. At Cullompton, Devon, a summons was heard against an elderly man who had harnessed a dog to a four-wheeled invalid carriage. He claimed that he was only following the French custom. An inspector of the Society for Cruelty to Animals explained that it had been an offence to tie a dog for draught since 1851. A fine was imposed.

The fastest flowing river in the world is the Sutlej, in India, which rises 15,200 feet above the sea, and falls 12,000 feet in 180 miles.

Few Lepers in Canada

Only Seventeen As Compared With 2,000 in States

Rev. H. N. Kenkle, Secretary for the whole of Canada for the mission of lepers, says that at present there aer two thousand lepers in the United States, according to estimates made by medical authorities. In Canada there are only seventeen lepers segregated in two leper asylums, one on the west coast of British Columbia, about fifteen miles from Victoria, and known as D'Arcy Island, and the other at Tracadia, off the coast of New Brunswick. There are estimated to be about two million lepers in the world, scattered among all the countries.

When asked what results had been obtained from the new cure for leprosy announced some time ago, Mr. Konkle said that what they called a temporary cure had been discovered and that some good results had been accomplished from it. It could not yet be called a permanent cure, however.

Justice For All

Would Develop Better Spirit to Keep People in Canada

"The Canadian idea" was the subject of a forceful and convincing address by William H. Moore, Toronto author, at the Canadian Club luncheon in Ottawa. A spirit must be developed, he said, which would keep her young men here.

In no uncertain tone he emphasized that justice in Ontario for the French-Canadian minority and justice in Quebec for the British-speaking minority was the real basis on which to erect Canadian nationhood.

Hubby Gets In Bad

The committee wanted Mrs. Flubdub to lecture on some subject or other.

"But I can't lecture."

"Your husband assures us to the contrary," they said.—Louisville Courier-Journal.

What's Needed

An interesting device—that motor truck which "walks like a man." Now for a pedestrian who can run like a motor truck.—New Orleans Times-Picayune.

And the man who is really and truly in love doesn't lie to the woman in the case.

Keep Them Growing

Children who are over-thin, listless or delicate, should take

Scott's Emulsion

regularly every day as an aid to growth and sturdiness. *Nothing surpasses Scott's Emulsion as a tonic-nutrient for a child of any age.*

Sale Of Spurious Antiques

Case in London Court Reveals Methods Used to Defraud the Unwary

The methods by which thousands of persons are cheated annually through the sale by dealers of antique furniture, draperies and porcelain, which are "faked," were shown recently when an antique dealer was brought into a London court charged with fraud.

During the trial it was declared that dealers sell thousands of pounds worth of antiques every year to American tourists visiting England, and that probably less than five per cent of the purchases are real.

The methods of the antique dealers in faking their wares are carried out so skilfully that the experts differed widely in their opinion of many of the pieces brought into court. The invoice system of the crooked dealer is to obtain a genuine antique of a certain period, for instance a chair. This he will take apart, and reconstruct a number of new chairs of the same design, each one containing a section of the original chair. It was shown during the hearing that an antique bedstead had been taken to pieces, and that the twelve duplicates fashioned in accordance with this system has sold for $5,000 each.

In faking china the work is more difficult. Here the dealer must make copies conforming minutely to the original and bearing the maker's signature. This requires a skill which few persons possess nowadays, and which easily baffles the experts.

It is estimated that 60 per cent. of the antiques now being shown in London are not what they are represented to be.

The Call to Courage

The young men of our day are too apt to fancy that big opportunities have vanished. They are mistaken. There are more chances today for brain and brawn, courage and hard work, pluck and perseverance, than ever. If the way is not free from obstacles, all the better. Such things bring out initiative confidence.—From the Ottawa Journal.

You May Be Ill To-Night Have You a Remedy?

It may be a disordered stomach, perhaps cramps or acute indigestion. If you have no remedy handy, you are bound to suffer. Twenty drops of Nerviline in sweetened water will ease the pain and enable you to get a good night's sleep. Whether it is Neuralgia, Sick Headache or some other minor ailment, Nerviline can be used internally or externally and will be found a true friend for every family. Large 35c bottles sold everywhere.

"Comet" Engine Preserved

In the South Kensington Museum, in London, is to be seen the very engine that propelled the Comet, the first passenger steamboat seen in European waters. "

Few people get high enough up the ladder of fame to make them dizzy.

QUICK

Yes dear, "there's no end to the misery" when you take PE-RU-NA. Believe the Doctor's advice, you notice improvement right away. You can also feel sure of relief from those annoying colds, tendency to constipation, peevishness, nervousness, headaches, and that tired feeling. Many of the best people in the land are taking PE-RU-NA to-day. Why not you? PE-RU-NA is a tonic laxative and just what you need. Then, don't forget that common fruits to the healthy digestion. Let PE-RU-NA help you to health. If you want results, be sure to proceed in accordance with the directions, from cover to cover. If you want results, try a bottle of PE-RU-NA today and be sure to take it. Sold everywhere.

Alberta's Butter Output

An Increase of a Million Dollars Over Previous Year

The province of Alberta produced in 1922 ten million dollars worth more in products of the land and livestock than in 1921. Products of the land in 1921, including the value of livestock slaughtered and sold, totalled $137,455,000 and the estimate of last year's value of production is placed at $147,378,000.

The increase comes chiefly in the larger quantity of grain in the province, and in the substantial increase in dairy products. The quantity of wheat produced shows an increase of about ten million bushels, although the average per acre is lower than the previous year. The average price for wheat was slightly higher this season than last. It is estimated that there will be about 62,000,000 bushels of wheat of this season's crop. The total value of all field crops is placed at $91,340,000 as compared with $82,795,290 last year.

The increase in dairy products and their value is rather remarkable. Although the number of dairy cows in the province is less than the previous year, and although the general market for creamery butter was lower, value of dairy products shows an increase of a million dollars. More than 2,000,000 pounds more of creamery butter was made in the province this season than last, the figures being 15,018,000 for 1921, and 15,175,000 for 1922. This amount of factory cheese also shows an increase from 929,600 pounds to 975,600 pounds.

Miller's Worm Powders will drive worms from the system without injury to the child. The powders are so easy to take that the most delicate stomach can assimilate them and welcome them as speedy enemy of pain, because they promptly remove the worms that cause the pain, and thus the suffering of the child is relieved. With no sterling a remedy at hand no child should suffer an hour from worms.

The British Pound

Reason Why It So Soon Regained Its Original Value

While the average person is only dizzied by the mysterious jargon of finance with which great bankers seek to explain the rise of the British pound, there is one simple, fundamental, all-sufficient reason for what has happened. Briefly, it is the world's recognition that no matter what happens, and quite regardless of their existing trials and difficulties, the British people will muddle through and pay up all they owe. Already, despite surface evidence of great burdens and hardships, proof is being afforded that England is fast regaining the position of supremacy which she held before the war. Her trade, to begin with, is brightening; her exports are regaining their old place; British shipping has regained its pre-war ascendancy; British agriculture promises better than for years; the British Government, alone among European nations, is preparing to pay off its debts.

World finance reacts to such evidences. The peoples behold a nation which, despite responsibilities, activities, and efforts that appall, is equal and more than equal to any task or emergency. They know that what ever happens to Europe, or to the credit of world finance, the English will be the last to go down. In other words, they are finding out precisely what Mr. Walter Leaf found out when he wrote to President Wilson of the British:

"It is not by accident that these people have gone so far in the world."

For Rheumatic Pains.—The pain and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Eclectric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for Inflammation, pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Mistaken Identity

The following story about an absentminded Bishop is being whispered around in ecclesiastical circles At the end of a very tiring day he was conducting a confirmation service, at which there was a large number of candidates.

The last candidate to come up was an old man with a perfectly bald head. This Bishop placed his hand upon his head in the usual manner, but in the most unusual manner was heard to exclaim as he did so:

"I declare this stone to be well and truly laid."—London Morning Post.

Back to First Principles

Finding paper marks no good to him, the editor of a weekly paper in Bavarian town has announced to the public that he prefers to take his subscriptions in kind. For a three months' subscription he is ready to receive six pounds of flour, a pound of butter or two dozen fresh eggs.

Many mothers have reason to bless Mother Graves' Worm Exterminator, because it has relieved the little ones of suffering and made them healthy.

Thoughtful Dog.

A large dog attended a motion picture theatre at Ann Arbor the other night, and lay on the floor watching the show quietly and intelligently, not once reading a caption aloud.—Detroit News.

During the French and Indian war the French offered bounties for British scalps.

Beecham's Pills Keep you fit

WORLD HAPPENINGS BRIEFLY TOLD

The London Daily Express understands that the estate of the late Lord Northcliffe is valued at £5,500,000.

The Postmaster-General has appointed Major Robert Wooldige Gordon, M.C., reserve of officers, Grenadier Guards, to be an aide-de-camp.

Vancouver, notorious for its rains, was a comparatively dry town in 1922. Only 46.63 inches of precipitation was officially recorded, or less than the average precipitation in Montreal.

Fifty per cent. less beer was consumed in Great Britain in the past year compared with the pre-war consumption, according to the Brewers' Society.

According to information in authoritative Vatican circles, Pope Pius plans to hold another consistory in March, at which new cardinals may be created.

Bishop Lloyd announces that the proposal to bring out Welsh emigrants and settle them on the lands around Hanjie, Sask., recently vacated by the Mennonites, has been abandoned.

Announcement has been made that residents of St. Boniface, Man., will raise a fund of $500,000 to assist in rebuilding St. Boniface College, recently destroyed by fire.

Canada exported fish and fish products to the value of $2,350,385 during November, 1922, as compared with $2,965,752 in October, 1922, and $2,773,192 in November, 1921.

A statement issued by the treasury places the revenue of the United Kingdom for the past nine months at £285,500,000 compared with £276,750,000 for the corresponding period of last year.

Nine United States naval radio stations in the vicinity of the Great Lakes have been ordered closed and placed on an inactive status pending final determination of their disposition.

Under the operation of the new tariff law of 1920, licensed liquor export warehouses in Vancouver have dropped from 16 to five. It is possible some of the five may be abandoned.

In the thirteen months from December 2, 1921, to the end of 1922, there were granted in Manitoba court 120 decrees absolute of divorce. More than 1,000 couples have been separated, legally since the provincial courts in 1917 first heard divorce cases.

A despatch from Pekin says Great Britain has verbally informed the Chinese Government of its decision, in principle, to devote Great Britain's share in the Boxer indemnity to purposes mutually beneficial to both countries, but mainly to Chinese education.

Expert Soarers

Aviators Can Learn Much From Buzzard and Albatross

A great aeroplane designer, discussing the general question of motorless flight, declares that we are now at a stage in aeronautics in which the buzzard and the albatross have a special interest for us. The buzzard is a magnificent soarer. In regions where the country is flat the air rises from the surface of the earth in waves and sometimes in spirals, and the buzzard, finding a "lodgment" in one of the spirals, is lifted, sometimes out of sight. The albatross rises with little effort from the crest of a wave and rides the wind for hours.—Youth's Companion.

Not a Vacation

Mary.—I'm going to get married next month if Bob can get a week off from his job.

Marie.—Do you think he'll be able to?

Mary.—I think so. You see, it isn't the same as if he was asking for a vacation to have a good time.

It isn't until a boy has celebrated his 8th birthday anniversary that he begins to notice his father's ignorance.

Iron mines in Great Britain were worked as early at 51 B.C.

Suffered for Years but now Quite Well

Cannot Speak Too Highly of Dodd's Kidney Pills

Quebec Man used Dodd's Kidney Pills and Recommends them to all who Suffer from Kidney Ills.

Cordonnier, Dequin, Que. — (Special).—"For many years I suffered with bad kidneys and could get nothing to relieve me. At last I thought of Dodd's Kidney Pills and commenced taking them. I am now perfectly well."

Mr. L. Prembley, who lives here, makes the above statement. He feels that he owes it to other sufferers of kidney troubles, to tell them how he found relief from his suffering.

Other sufferers from Kidney complaints tell of being relieved by Dodd's Kidney Pills. They act directly on the kidneys. They strengthen them and put them in shape to strain the uric acid out of the blood.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick Kidneys.

To Eliminate Mixing of Grain

Question Will Be a Live One in the Next Session of the Federal House

Saskatoon district farmers will welcome any movement aiming toward elimination of grain mixing, and are ready to lend their united strength in any fight to this end, according to the consensus of opinion gathered from growers in that territory. These opinions follow repeated reports that the question will be a live one in the next session of the Federal House. They believe the only way to dispose of the wheat crop in fairness to the producer is for each car of grain to be sold on sample basis before it goes into any terminal elevator.

IF STOMACH IS TROUBLING YOU

Instantly! End Indigestion or Stomach Misery with "Pape's Diapepsin"

As soon as you eat a tablet or two of "Pape's Diapepsin" your indigestion is gone! Heavy pain, heartburn, flatulence, gases, palpitation, or any misery from a sour, acid stomach ends. Correct your stomach and digestion for a few cents. Each package guaranteed by druggist.

German Monuments Wrecked

Statues at Halle, Germany, Are Damaged by Bombs

The home of Herr Lehmann, banker, and the statues of former Kaiser Wilhelm, Bismarck, and Von Moltke were bombed simultaneously at Halle, Germany.

The most damage was done to the statues. Those of Wilhelm and Bismarck were nearly wrecked, while that of Von Moltke was totally ruined. Only slight damage was done to Lehmann's house.

The fuse that accompanied the simultaneous blasts was heard throughout the city, causing the wildest excitement.

MOTHER!

Move Child's Bowels with "California Fig Syrup"

Even a cross, feverish, bilious, or constipated child loves the "fruity" taste of "California Fig Syrup." Teaspoonful never fails to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the sour bile, and undigested food out of the bowels and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! you must say "California Fig Syrup" or you may get an imitation fig syrup.

Digs and Loads Potatoes

A new potato harvester which has been devised digs up the potatoes and loads them into a wagon moving alongside the harvester. After being dug up the potatoes are conveyed on a belt and elevator into the wagon.

Whether the corn be of old or new growth, it must yield to Holloway's Corn Remover.

Like British Rule

All the native chiefs of the Nauru Islands have signed a memorandum stating that they are quite satisfied with the present administeration and that they prefer greater freedom than under German rule.

Treating Disease By Inoculation

The possible treatment of appendicitis by inoculation has aroused great interest among British specialists. Perhaps the interest is keener upon the part of physicians than of surgeons, but this is very human. Apparently, many diseases will be treated in the future simply by inoculation and the use of the knife will be rarer.

Manitoba Fair Dates

E. L. Darns, Secretary of the Manitoba Fairs Association, has announced the following dates for the 1923 circuit: The circuit will open at Carman on June 30, July 2 and 3; Portage la Prairie, on July 5, 6 and 7; Neepawa on July 12, 13 and 14; and Russell on July 16 and 17.

It is perhaps not generally known that the three-cornered nuts called Brazil nuts grow in packed Carmen enclosed in shells which are roughly spherical in form, and have somewhat the appearance of rusty cannon-balls.

IT IS THE BEST

Lack Knowledge Of Canada

Hon. Geo. Graham Finds Americans Know Little About Dominion

That even leading persons in the United States possess little or no knowledge of Canada, and that this state of affairs does not make for mutual understanding, was the contention of Hon. George P. Graham, Minister of Defence, speaking to the Rotary Club at Brockville.

Of 15 delegates to a political convention whom Mr. Graham said he had met on a train in New York State recently, and interrogated, only one could name a Canadian public man, and he mentioned "Mr. Lasrier," who had been "Governor-General of Canada."

One for the Mail Carrier

"I was delivering letters when I came upon a group of children who took turns to knock at one house out of pure mischief. Imagine my surprise, on trying to insert some letters in the box at the same house, at the door flying open and a frantic woman giving me a resounding smack in the face! She apologized, but the look of horror and concern on her face when she recognized me more than made up for my burning ear. I quite appreciated the joke."

Deport Aliens Who Sell Narcotics

Deportation of Chinese and other aliens for peddling drugs, and for other infringements of the Opium and Narcotic Drugs Act is being carried out by the Department of Immigration. Deportation in these cases was authorized at the last session of Parliament and is effected after the offenders have completed their prison sentences. Approximately 12 aliens have been returned to their native lands so far, it is announced.

Won Championship For Oats

J. W. Elgiands, of Lacombe district, won the oats championship at the International Livestock Show at Chicago in competition with exhibitors from all parts of the U.S., Canada and Mexico. The winning of this much coveted award is another example of the superiority of Canadian-grown oats over that grown in other countries, and this award is considered by all growers emblematic of the world's championship.

Lynn Made Shoes in 1638

The shoe industry of Lynn, Mass., dates back to 1638.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beauséjour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. We strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Russian General Travels Steerage

Former Commander-in-Chief Will Live in Seattle

Carrying an English-Russian dictionary in his hand, Gen. Alexander Ivanoff, who in 1917 commanded the armies of the Czar in Russia on the eve of the revolution, arrived at Seattle as a steerage passenger on the Iyo Maru. He announced his intention of making a living in Seattle.

His wife had reached Shanghai and would come to Seattle as soon as he could make money enough to bring her here.

After the fall of the Imperial Government in Russia, General Ivanoff became a fugitive. He was hounded all over the country by Bolshevik agents, but managed to reach Harbin, from whence he subsequently made his way to Japan.

General Ivanoff was dressed in a rough blue sweater, an unimpressive suit of clothes and a pair of American-made shoes.

Minard's Liniment for Rheumatism

Tiny Watch

A watch designed to be worn as a tie-pin has recently been devised. Its face is about half the size of a ten-cent piece. While the face leads one to believe that the movement is also exceedingly small, this is partly an illusion, for the case, concealed in the folds of the scarf, are really slightly larger.

GLEICHEN, ALBERTA, WEDNESDAY

ALBERTA TOURIST TRAFFIC

A large increase in tourist traffic to the famous mountain resorts of Alberta is expected the coming summer as a result of the opening of the last link in the grand circle tour of the Western States and Alberta, namely, the stretch between Banff, Alberta, and Windermere, B.C. The official opening of this road will take place June 30th. By this completion, a circle tour covering the most famous scenic trips on the continent is made possible. This circle highway leads up from the Grand Canyon of the Colorado in Arizona, through Utah and Salt Lake to Great Falls and Glacier National Park in Montana thence through Waterton Lakes Park on the southern border of Alberta, to Calgary via Macleod, thence west to Banff and Lake Louise, thence south over the new Windermere road into the Columbia Valley and into the State of Washington, and on south to California. A circle tour of the Canadian Rockies of 567 miles in extent is also made possible from Banff the Crow's Nest west of Macleod and Lethbridge, up the Kootenay Valley over the Windermere road to Banff and east to Calgary, and back south to Macleod.

Seeding of the 1923 grain crop is now general over the province of Alberta and is proceeding under fairly favorable conditions. The opening of the season found the soil over the greater part of the province in a very dry condition, which tended to restrict the area prepared for crop. During the past two weeks, however, there has been some precipitation, which encouraged the farmers to prepare more land.

Taking the province as a whole the area now ready for crop is about the same as last year, but in most districts the farmers are holding back for better moisture conditions before seeding all the land prepared. In the southwestern district and in some of the central districts of the province, a somewhat larger area than last year, in several cases as high as 15 per cent more, is being seeded. In the northern sections the area being seeded is less than the previous season. In the remaining sections of the province, the area is about the same as in 1922.

Wheat seeding operations over the province as a whole are between 60 and 70 per cent completed, and the seeding of oats has commenced. The moisture at present in the soil is sufficient for germination but not for any heavy growth. The weather during the past month has been alternately warm and cool, with light precipitation of rain and snow.

Fall rye is showing up well in most of the districts where this crop has been planted. Alfalfa in the southern districts has come through with practically no winter killing.

There has been a marked increase in many districts in acreage of corn for both fodder and grain. In some cases areas of from 40 to 100 acres of this crop is being planted.

Grasshoppers—Reports received by the department show little indication of grasshoppers so far, some reports stating that eggs do not appear to be so numerous as last year. The department, however, is making every every preparation to combat the pest on its appearance.

Livestock generally speaking is in excellent condition, having survived the winter very satisfactorily.

Here is the story of the man who is so stingy to take his home paper: A man who is too economical to subscribe fo rn paper sent his little boy to borrow the copy taken by his neighbor. In his haste the boy ran over a four dollar stand of bees and in ten minutes looked like a warty squash. His cries reached his father, who ran to his assistance, and failing to notice a barbed wire fence ran into that, breaking it down, cutting a handful of the gap in the fence and got into a four dollar pair of pants. The old cow took advantage of the advantage of the gap in the fence and got into the cornfield and killed herself eating green corn. Hearing the racket, the wife ran, upset a five gallon churn full of rich cream into a basket of chickens, drowning the whole flock. In the hurry she dropped a seven dollar set of false teeth. The baby left alone,crawled through the spilled milk and into the parlor, ruining a brand new fifty dollar carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven setting hens and the calves got out and chewed the tails off four fine shirts.

UNIQUE LETTER HEAD

In looking over some old letter fyles the other day we ran across a letter addressed to the Call from A. Spreadbury, written in Dawson City, Yukon Territory, dated March 8th, 1910, advising us that he was leaving the middle of April for Gleichen and to hold his Calls until his arrival. We regret to say a couple of years latter Mr. Spreadbury returned to Dawson, where he died.

The letter head he used in writing us is rather unique in its wording and reads as follows:

Sour Dough Hotel, 1333 Icicle Avenue. Best house north of Mexico. First class in every particular. Rates: one ounce per day. Crap, chuck luck, stud poker and black jack run by the management. Private entrance for ladies by ladder in the rear. Special rates for ministers and the gambling "perfesh". Every known fluid—water excepted—for sale at the bar. Dogs board and sold. Insect powder for sale at the bar. Indians and niggers charged double.

House Rules

Towels changed weekly.

Dogs not allowed in the bunks.

Candles and hot water charged extra.

Board $2 per square foot. Meals extra.

Spiked boots must be removed at night.

Guests are requested not to speak to the dumb waiter.

Anyone troubled with night-mare will find a halter on the bed post.

If the room gets too warm open the window and see the fire escape.

Base-ballists desiring a little practice will find a pitcher on the stand.

Don't worry about paying your bill the house is supported by its foundations.

The hotel is convenient to all cemeteries. Hearses to hire at 25 cents a second.

Guests wishing to do a little driving will find hammer and nails in the closet.

Guests wishing to get up without being called can have self raising flour for supper.

If the lamp goes out take a feather out of the pillow; that is light enough for any room.

If your are fond of athletics and like jumping, lift the mattress and see the bed spring.

Not responsible for diamonds, bicycles or other valuables kept under the pillows; they should be deposited in the safe.

OMAR KHAYYAM

Set limits to thy desire for worldly things, and live content;
Sever the bonds of thy dependence upon the good and the bad of life;
Flee from the study of sciences—'tis better thus,
And twine thy fingers in the curly locks of a loved one—'tis better thus.

Oh! how long we shall be no more, and the world will continue to exist,
It will continue to exist without fame or sign of us;
Long ago we existed not and (the world) was none the worse for it,
Afterwards when we have ceased to exploit, it will be all the same.

If the heart understood the secret of existence as it is,
In death it would know all the secrets of God;
If today thou knowest nothing, being with thyself,
What wilt thou know tomorrow when thou abandonest thyself?

VALUE OF TEA

The benefit of the afternoon cup of tea in stimulating the flagging energies of the factory workers is mentioned by the Industrial Fatigue Research Board in its report recently issued.

Investigations showed that where the long afternoon spell of five hours was interrupted by a tea interval, even if for ten minutes only, the quantity of the work was particularly noticeable.

The report states that some of the workers observed: "We can face with equanimity, and even with enthusiasm, a period of two hours' work with the prospect of a rest, but to look forward to four or five hours' unbroken work is likely to dampen the enthusiasm of even an ardent worker."

The time is ripe for confining the operation of the human mind hereafterto the simple content of observed facts.

Here and There

Nova Scotia has adopted the "drive to the right" rule of the road, the bill providing the change having received the assent of the administrator of the province.

The year 1922 was a banner year for Montreal in the number and tonnage of ships which came to the port, a total of 6,983 ships of 13,089,695 tons arriving, as compared with 5,541 ships of 9,758,450 tons in 1921.

Canada led the world in 1922 in the export of raw furs to the United States. The total for catch for that year was over 4,000,000 pelts, valued at $16,000,000. While the general price of furs shows a downward trend, the total catch shows a remarkable increase.

Four of the Canadian Pacific "Empress" liners, the Britain, the France, the Scotland and the India, are to load grain at Quebec during the 1923 season, and new berths have been provided for these vessels near the grain conveyors, at a cost of $300,000.

When she was alighting from a street car in Vancouver, Mrs. Rose McLaren received injuries which prevented her from concentrating and temporarily debarred her with her earning power as a spiritualist or psychic reader. She was awarded $1,250 against the railway company.

The addition of the 17,000-ton "Montlaurier" to the Canadian Pacific "Mons Class" fleet marks an important development. Not only is she the largest one-class-cabin ship sailing to and from Canadian ports, but she is the largest in her class on the Atlantic. Her length is 613 feet and breadth 68 feet. Because of her size she will sail to and from Quebec.

Approximately 8,000 tons of silver ore are waiting shipment from the Keno Hill, Yukon, mines. This quantity represents the winter haul. Another 2,000 tons may be moved this summer, making the total silver shipments ten thousand tons for 1923. Such an output is worth about $2,000,000, high grade ore running from $200 to $300 per ton.

"The greatest feat of steam transportation in my knowledge," said C. F. Stockdill, of the Canadian Pacific Railway recently, "was the movement of the grain crop of 1922." From Sept. 1 to Nov. 31, a period of 91 days, the Canadian Pacific Railway loaded and shipped an average of 1,265 cars per day. This requiring the dispatching of a train every 45 minutes during that entire period, carrying more than 1,000,000 bushels daily. This movement exceeded even that of the bumper crop year of 1915.

One of the many instances of the splendid work carried out at the Liverpool docks is afforded by the Canadian Pacific liner "Metagama." On a recent arrival at that port she started the discharge of her cargo and coaling at 6 o'clock in the morning. Allowing for the usual dinner hour, she took on board in her side bunkers 1,000 tons of coal, which was completed by 2.45 the same afternoon. At the same time she discharged 1,700 tons of cargo, the greater part of which consisted of package freight, completing this operation by 7.15 the same evening.

The man who uses his habits to fill his trousers pockets will seldom have been successful in making food from air. He talks as if he had been trying the stuff.

SPRINGIS NOW HERE

The time to paint your house is in the spring. The best paint is the cheapest

Shops which were illuminated by advertising court with full confidence your favior

Taking the Roof of Canada.

The glacial rockies as a movie location.

"AND just then," said Otto Paul Schwarz, of Switzerland, in describing a trip in the Canadian Pacific Rockies, "we saw a huge Bergschrund."

"And did it bark at you?" he was asked. "Or do they bleat?"

"Ach, no. A bergschrund is not a bird. It is a huge crevasse where the ice has slipped down the rock wall and cracked. The next stumbling block we came to was a chimney. This is a hard business. It means bracing your back against one wall and your feet against the other and doing what you call on this side 'the shimmy' till you get to the top. Icicles fifteen feet long hung above us."

It is a great life, this one of mountain climbing, especially higher up where the glaciers are. Imagine a river of ice with a depth of something like 1,000 feet. Great crevasses reach down, it seems, to the bowels of the earth, peaks and minarets rise from the uneven surface and glisten in the sun which can never warm them; a giant green-white force, irresistible, stupendous, with an alluring fascination which the lovers of the outdoors cannot deny.

The picture above was taken on the "roof of Canada" near Banff, and the huge glacier which the party is traversing will, in years, perhaps, help to make fertile the prairie plains. Travelling at the rate of about four inches each day, nothing can withhold it, but another generation of sightseers will have come and gone before the ice on which the climbers stand will have found its way down to the warmer valleys where it will melt; and in the meantime, soon from the seven higher peaks will press and pack and so, so far as the present day world is concerned, the life of this wonderful natural force is without end.

Billy Jones wrote on the blackboard "Billy Jones can hug the girls better than any boy in school.' The teacher seeing it called him up. "William did you write that?" she said. The children waited for Billie to come out when they began to juy him. "Got a lickin', didn't you?" "No," said Bill. "Get jawed?" "No." "What did she do?" they asked. "Shan't tell, but it pays to advertise." said Bill.

"Life termer inherits a fortune." Isn't that nice? Now he can get a lawyer, an incurable disease and a pardon.

In the old days a girl was grown before she came out, but now by the time she is grown she is accustomed to staying out.

It is necessary to place some men behind the bars in order to induce them to lead the simple life.

Once in a great while a married woman admits that she doesn't wish that she had remained single.

The theory that a woman can stand more pain than men became popular long before shaving was in vogue.

Who can tell in an emergency whether that sound is his brakes squeaking or his wife squealing.

WINNIPEG TORONTO, CANADA MONTREAL

Value of Hudson Bay Cruise

Announced that Saskatchewan is Unlikely to be Represented on Trip

Saskatchewan is unlikely to be represented, as proposed earlier through the Hudson Bay to be organized by the Federal Government in August next, according to the present intentions of the Saskatchewan Government, as announced by Premier Dunning in the legislature. He intimated in an overland trip on the Hudson Bay Railway which some western provinces contemplated organizing in 1925, would have more scientific value than the proposed cruise through the Straits.

Premier Dunning said some of the western provinces had in mind organizing an overland trip to the bay over the Hudson Bay Railway during 1925. He believed that would have more practical value than a cruise through the Straits. The results of such a trip might be very valuable in the event of a commercial outlet being in the suitability or one or other of the two ports. The Government had been cognizant by high navigation authorities that the trip through the Straits in August would prove nothing, and that the passengers would not be able to see anything that would determine the practibility of the route or otherwise.

"However," he added, "there is still time to change our minds if we should later consider it advisable to have the province represented on that occasion."

Whenever you feel that tightening in the chest, that deepseated irritation that is the quite forerunner of a chest cold—

Apply Sloan's toothest and neck. It breaks up the congestion and brings instant relief. The penetrating warmth of this liniment removes normal circulation and reduces inflammation.

Don't let your chest cold develop. Wherever congestion causes pain—use Sloan's.

Sloan's Liniment—kills pain!

For rheumatism, backache, strains, chest colds, sciatica, neuritis, lumbago, sprains, bruises, sore muscles.

"YOUR TEETH"

SCURVY AND THE TEETH

By Res Proctor McGee, M.D., D.D.S., Pittsburgh, Pa.

At the Lester Institute in London, years of experiments in the study of scurvy have shown that the slightest trace of this disease results in definite changes in the structure of the teeth.

We have long known that the most prevalent and characteristic disease is decay. To have bacteria become active we must have a point of entrance and a lowered resistance.

Scurvy tears the periosteum of the teeth by causing changes in the tooth structure, and so encourages the activity of the bacteria of decay. In addition, the lowering of the vitality of the membrane surrounding the tooth, causes a loosening of the teeth in their sockets and a tendency to shed their teeth long before they could if the disease is not checked.

Scurvy is a disease that is caused by lack of proper nourishment. We usually think of the disease as one that was commonest in the Civil War days and that it is not likely to occur in our own time.

But, strange as it may seem, its effects are present, and in all parts of the world, scurvy is the most common disease.

There is a very common form, known as latent scurvy, that is difficult to recognize except by the condition of the gums and teeth. This is particularly prevalent in undernourished children. The causes of the disease are many, but the principal one that may be eaten in sufficient quantity but that does not provide the right amount of vitamines. Even then, they may be sufficient in quantity and quality but that is not properly assimilated and consequently does not completely digest.

In fact, it is not the quantity of food that counts; it is the nourishment derived from it that gives strength. The condition of the teeth and gums will be either the cause or the result of the disease of under-nourishment.

If the teeth are kept clean daily and the gums are inflamed and the bony process around the teeth begins to absorb, giving the appearance of pyorrhea alveolaris, it is due to having the child treated by both the physician and the dentist.

Every child is entitled to the privilege of growing up healthy and strong.

Don't wait for your child to "become" this condition. Help the little fellow to do all there is out of need and out of line.

London's Transport Problem

Omnibuses and Trains Carry Over Three Million Every Day

In carrying London's passenger traffic the Metropolitan Railway Undertaking and the omnibuses travelled 167,161,602 miles last year.

This figure is extracted from what the companies lightly call their "miscellaneous statistics," given some idea of the immensity of the transport problem that confronts the city in getting to work, business or pleasure, no fewer than 3,472,375 people travelled by the railways and omnibuses during the average (average or 222,16 more than in 1924), and in the year this meant the staggering total of 1,171, 257,784 journeys.

What is even more striking is the fact that this huge figure represents an increase of 7,295,614 over 1924, and that but for the buses there would have been a big decrease.

Simple Addition

"I am selling adding machines," announced the new travelling salesman to the country storekeeper. "I have the best adding machine that's made to-day and will add any number of figures needed."

"Reckon I don't need one," replied the storekeeper, shifting his seat on the cracker barrel.

"But, man, how else can you keep the white things?"

"Wal, I got a plenty good enough system. I cut a notch on the counter for every dollar's worth a sale."—American Legion Weekly.

Surplus Wheat in West

Grain experience authorities assert there are still not less than 72,000,000 bushels of wheat scattered over the west that must go to England either by the Panama route or one of the Canadian channels. This figure takes into account some 75,000,000 bushels in the west that must be utilized for domestic feeding and flour.

There is nothing repulsive in Miller's Worm Powders, and they are as pleasant to take as sugar, so that few children will refuse them. In some cases they cause vomiting through their action in an unusual stomach, but this is only a manifestation of their cleansing power, no indication that they are harmful. They can be thoroughly depended upon to clear worms from the system.

Where United States Failed

We know how much of the politicians feel about America's pledge to a neighbor's part in the aid plight in which Europe is left after the war. We undertook to do a noble thing. Nobly we began it, and then—cleared out and played the safe and selfish game. If we received the whole country felt as the politicians do we should be ashamed of our country. The nation, like the individual that will save its life, will lose it. We are already losing ours.—Dumb Animals, Boston.

Minard's Liniment for Rheumatism

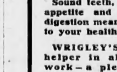
After EVERY Meal

give your digestion a "kick" with WRIGLEYS.

Sound teeth, a good appetite and proper digestion mean MUCH to your health.

WRIGLEY'S is a helper in all this work—a pleasant, beneficial pick-me-up.

D39



Wheat Exports

104,432,000 Bushels Shipped to British Isles in Six Months

Working on the shipments of domestic and Canada the vast territory, it did not concern such serious problems. Still, there are but twenty such agents for all the American Republic. They have done and are doing very well, but, if Canada means business, if the vacant lands are to be filled with tax-payers from this country in the volume expected and in numbers such as the fine prospects in Canada warrant, every office ought to have three or four field men who would do nothing but travel and meet personally those who are writing about going "up north" and give valuable information or a million and a half, as now, should be spent annually on this arm of the service down here for the next ten years.

A prospect from Kansas City visiting Canada must pay $33.71 to Winnipeg for a ticket and $171 for a car or settlers effects. From Texas points the non going to Canada pays on his car or settlers effects $326. This rate is based on the tariff to Edmonton and is somewhat less to intermediate points. So the railroads down here are doing everything possible to discourage the movement of farmers to Canada.

Beginning this month, however, there is a monthly immigrant car special run to the Canadian border that gives a one-fare rate, plus $2 for the round trip. This is not done by the U.S. railroads for the benefit of the people who want to go to Canada, but for those who desire to move into the northwestern states and, of course, the Canadian lines extend this from the border on into Canada, but it illustrates the difficulties of moving immigrants overland from this section.

Canadian Travelling Exhibition

French Government Votes Large Sum For Canadian Exhibit

The French Government has appropriated 3,750,000 francs to expend upon the Canadian Travelling Exhibition, according to advices received from Paris. It proposes to accord Canada the same facilities as were accorded to France by Canada in the French travelling exhibition of 1921. The programme provides for constructing on a money exchanged on a main line of motor lorries which will draw trains of special cars built to receive the exhibits. After touring the province, last year, the exhibition left Paris where it will be installed in a large building.

Pulp Mill For Manitoba

The erection of a pulp and paper mill at Port Alexander, about 70 miles from Winnipeg, will be started this spring by J. D. McArthur & Co., Ltd., according to information received in Winnipeg. The scheme also provides for the construction of a railroad 70 miles from Ilgonish to Port Alexander, and the total expenditure will amount to $5,000,000. The mill, which will have a capacity of 120 tons a day is expected to be completed within two years.

Increase In Trade

Noticeable Growth in Exports Over Last Year Is Shown

The total trade of the Dominion for the first month of the current fiscal year shows an increase of $216,000,000 above the figures for the corresponding period last year. The export of foreign merchandise remains practically the same; and of the increase $174,000,000 is in domestic exports and $42,000,000 in imports.

The increase in exports is pretty well spread over the entire list, although the most noticeable growths are $86,000,000, largely in foods; $12,000,000 in wood and its products; $20,000,000 in iron and $14,000,000 in non-ferrous metals. Among the leaders in the chief increases are $29,000,000 in fibres and textiles and $24,000,000 in iron and its products. There are also several decreases in imports, the largest being one of nearly $8,000,000 in the food group. For February, the first month reported, the betterment in the total trade is $22,000,000, divided just about equally between imports and exports.

The Life-Saving Airplane

Tribute to Value of Conquest of the Air

Day by day the airplane conquers itself more directly with life and ordinary human exigencies. A poor woodcutter is desperately injured on Beaver Island, a lonely isle in the northernmost waters of Lake Michigan, whose shores are 11 miles distant from the Michigan mainland. An operation is necessary to save the man's life. Over dangerous ice, word is carried to the mainland of the condition. The local doctor strives vainly to reach him across the ice. But the wood of the ultimate goes in that direction of aviation, Mount Clemens, hundreds of miles away, near Detroit —and instantly an airplane goes up, is on the way to the scene, picks up the doctor at Charlevoix, lands him in a trice on Beaver Island and the man's life is saved. What a tribute to life, to science, and what a piece of the beneficence of this 20th century conquest of the air.—The Boston Transcript.

Canada's Meat Trade

Canada exported meats and allied products to the value of $10,265,000, or $1,000,000 in favourable balance of $26,187,000, according to a statement issued by the Dominion Bureau of Statistics. It is expected that shipments to the United Kingdom in 1923 will show a substantial increase over those of 1922, in view of the lifting of the embargo on Canadian cattle by the British Government.

Minard's Liniment for Neuralgia

Interest In Western Canada Grows

Many American Farmers From the Middle West Looking For Cheap Land

(By G. C. Porter, of Winnipeg)

Kansas City, Mo.—"Our inquiries for Canadian farms are away above those of the same period for last year, and there is a better type going northward this season than in other years."

Thus spoke A. E. May, in charge of the government immigration office here. This office is responsible for all inquiries originating in the vast agrarian empire composing Missouri, Kansas, Oklahoma, Texas and a part of the State of Arkansas. There are no field men attached, just one man and a girl secretary. They must answer about eighty mail inquiries in a season and personally talk to half as many who call at the office each day. Some of these inquiries come through R. G. Norrie, representing the Canadian Pacific railway with headquarters in Kansas City, but the bulk of them go through May's office.

It would be a joke, the idea of one man pretending to take care on Canada's immigration business from all parts of the vast territory. It did not concern such serious problems. Still, there are but twenty such agents for all the American Republic. They have done and are doing very well, but, if Canada means business, if the vacant lands are to be filled with taxpayers from this country in the volume expected and in numbers such as the fine prospects in Canada warrant, every office ought to have three or four field men who would do nothing but travel and meet personally those who are writing about going "up north" and give valuable information or a million and a half, as now, should be spent annually on this arm of the service down here for the next ten years.

A prospect from Kansas City visiting Canada must pay $33.71 to Winnipeg for a ticket and $171 for a car or settlers effects. From Texas points the non going to Canada pays on his car or settlers effects $326. This rate is based on the tariff to Edmonton and is somewhat less to intermediate points. So the railroads down here are doing everything possible to discourage the movement of farmers to Canada.

Beginning this month, however, there is a monthly immigrant car special run to the Canadian border that gives a one-fare rate, plus $2 for the round trip. This is not done by the U.S. railroads for the benefit of the people who want to go to Canada, but for those who desire to move into the northwestern states and, of course, the Canadian lines extend this from the border on into Canada, but it illustrates the difficulties of moving immigrants overland from this section.

The total trade of the Dominion for the first month of the current fiscal year shows an increase of $216,000,000 above the figures for the corresponding period last year. The export of foreign merchandise remains practically the same; and of the increase $174,000,000 is in domestic exports and $42,000,000 in imports.

The increase in exports is pretty well spread over the entire list, although the most noticeable growths are $86,000,000, largely in foods; $12,000,000 in wood and its products; $20,000,000 in iron and $14,000,000 in non-ferrous metals. Among the leaders in the chief increases are $29,000,000 in fibres and textiles and $24,000,000 in iron and its products. There are also several decreases in imports, the largest being one of nearly $8,000,000 in the food group. For February, the first month reported, the betterment in the total trade is $22,000,000, divided just about equally between imports and exports.

The Life-Saving Airplane

Tribute to Value of Conquest of the Air

Day by day the airplane conquers itself more directly with life and ordinary human exigencies. A poor woodcutter is desperately injured on Beaver Island, a lonely isle in the northernmost waters of Lake Michigan, whose shores are 11 miles distant from the Michigan mainland. An operation is necessary to save the man's life. Over dangerous ice, word is carried to the mainland of the condition. The local doctor strives vainly to reach him across the ice. But the wood of the ultimate goes in that direction of aviation, Mount Clemens, hundreds of miles away, near Detroit —and instantly an airplane goes up, is on the way to the scene, picks up the doctor at Charlevoix, lands him in a trice on Beaver Island and the man's life is saved. What a tribute to life, to science, and what a piece of the beneficence of this 20th century conquest of the air.—The Boston Transcript.

Canada's Meat Trade

Canada exported meats and allied products to the value of $10,265,000, or $1,000,000 in favourable balance of $26,187,000, according to a statement issued by the Dominion Bureau of Statistics. It is expected that shipments to the United Kingdom in 1923 will show a substantial increase over those of 1922, in view of the lifting of the embargo on Canadian cattle by the British Government.

Minard's Liniment for Neuralgia

DELIGHTED OVER QUICK RECOVERY

Mrs. Nellie Mellard Gains Weight, Nerves Steady and Other Troubles Gone Since Taking Tanlac

"Three bottles of Tanlac did me a world of good, and I certainly think it is a fine medicine," declared Mrs. Nellie Mellard, 1421 Waseana Ave., Regina, Sask.

"For several months before I got Tanlac I was simply run-down all over and I became dreadfully nervous. I had absolutely no appetite, weighed only a hundred and nine pounds. I was so unstrung the least little thing upset me terribly and I was so weak I couldn't even do my housework.

"A neighbor advised me to try Tanlac, so I started on the medicine and now I have a splendid appetite, relish what I eat, and feel fine. That tired, run-down condition is all gone, and I have gained considerable in weight. I can recommend Tanlac highly."

Tanlac is for sale by all good druggists. Over 35 million bottles sold.

Ancient Shield Discovered

Carries Likeness of Christopher Columbus and Date "1492"

An old battling knife to the discovery of America by Columbus, was found recently by men excavating at Marysville, Ont. It bears a replica of the St. Maria, one of the discoverer's barques, and carried a likeness of Columbus and some kneeling Indians.

On it is engraved the word "Columbus" and "St. Maria," and at the base are the figures "1492."

The knife is being sent to the Queen's historical authorities.

Silos in Western Canada

Approximately two hundred silos were sold in Western Canada last year, according to figures compiled by the New West Farmer from reports received from manufacturers and distributors. In addition a large number of home-made silos were erected, bringing the total up to between 900 and 1,000. It is estimated that approximately double that number will be erected during 1923.

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes like a helping hand to a sinking swimmer. It gives new life and hope—something to live for—a chance to believe. Its benefit is too evident to be questioned—it is its own best argument—its own best recommendation. If you suffer from asthma get this time-tried remedy and find help like thousands of others.

Longest Glide

The longest straight line glide yet recorded has been made by M. Maynard, who travelled six miles in a strong wind and a calm in the identical machine in which he won the prize in the competition at Hloud, last October. Maynard has won a prize of about $200, given by a French constructor.

Minard's Liniment for Coughs & Colds

Asbestos Production

Asbestos output in Canada showed a great revival in 1922 when 139,000 tons were produced valued at $5,200, 000, compared with 82,761 tons in 1921, valued at $4,006,250.

Want Income Tax Amendment

An amendment to the income Tax Act providing exemption from taxation on contributions to educational and charitable institutions," will be urged at Ottawa.

Pimples Disappear

"You don't need mercury, potash or any other strong mineral to cure pimples caused by poor blood. Take Extract of Roots—druggists call it "Mother Seigel's Curative Syrup"—and your blood will clear up as fresh as a baby's. It will sweeten your stomach and regulate your bowels." Get the genuine, 50c. and $1.00 Bottles. All dealers.

INVENTORS

Manufacturers always consider good inventions. Patents secured through Ivey & Co. are handled with care. Write for Free List of Inventions Wanted and Free Guide Book.

KENDALL'S SPAVIN TREATMENT

Baby's Health in the Spring

The Spring is a time of anxiety to mothers who have little ones at the home. Conditions make it necessary to keep the baby indoors. He is often confined to overheated, badly ventilated rooms and catches colds which easily run into serious troubles.

To guard against this is baby's Own Tablets should be kept in the house and an occasional dose given the child as well. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Coal For Ontario

Hope to Secure Satisfactory Freight Rate to Make Plan Possible

The Ontario Government is investigating the possibility of getting the coal supply for this province from Alberta. Hon. Howard Ferguson, in the Legislature, put this information treat Premier Drury when he asked what was being done to prevent a coal shortage next winter like the one which had caused so much misery the year.

"For some weeks this Government has been in communication with the Government of Alberta regarding coal," said Premier Drury. "We have arranged to get a few cars down to Port Arthur and some are coming that we can get a freight rate on the National Railways that will make the transportation of large supplies over Canada Southern Railway possible. After considering the situation, I have come to the conclusion of the difficult problem by bringing in Alberta coal from Fort Arthur immediately on hand as to the impossibility of western coal, at least for this year."

Printing Calico In Olden Times

Work Was Slow Before Machines Were Invented

In the days before the printing machine was invented or even until its use became general, calico was printed by hand by the block method. By this method the design was outlined on the surface of a wooden block, the outlines were bounded by pieces of brass or copper and the surface filled in with felt to hold the color, and sometimes designs of as many as four colors or more were printed by this method. When the block was completed it was dipped in a color bath and the pattern was then impressed upon the fabric by stamping by hand, and for each color to be printed the cloth had to be stamped by the requisite operation. The work was slow and tedious and its printing cost some patterns that were printed in those days it would take a hour and one or two hours a whole year to print as many yards of cloth as can be printed on a modern print machine in probably a day or a little more.—Boston Transcript.

Hall's Catarrh Medicine

There who suffer from "one cause" condition will rather find Catarrh bothers them in many ways. It affects their general health. This fact proves that Catarrh is a blood disease. Hall's Catarrh Medicine acts through the blood and affects Catarrh in all its stages. Sold by druggists, 75c. Testimonials free. F. J. Cheney & Co., Toledo, Ohio.

Lucky Channel Islands

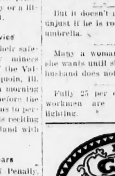
The Channel Islands are so lightly taxed that people migrate there from England in order to escape paying their share towards the upkeep of the Empire, and the islanders are now being asked to put an end to this state of affairs by taxing themselves on their own free will.

Possibly there is nothing in the world that gives a man that tired feeling quicker than to have another man say, "Why don't you do as I do?"

But it doesn't rain very hard on the unjust if he is rambling under a stolen umbrella.

Many a woman never knows what she wants until she finds out what her husband does not want.

Fully 25 per cent. of accidents to workmen are due to insufficient lighting.



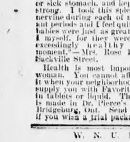
Minard's Liniment for Burns & Scalds

Toronto Woman Advises Young Mothers!

Toronto, Ont.—"During all my years of wifehood and motherhood I have had such great comfort from the use of Dr. Pierce's Favorite Prescription that I do not hesitate to recommend it to other women in need, strength and help during expectancy. 'Favorite Prescription' relieved me of all nausea or sick stomach, and kept me well and strong. I took this medicine and my nerves during each of my four expectant periods and I feel quite sure that my babies were just as greatly benefited as I myself, for they were plump and exceedingly healthy from the first moment."—Mrs. Rose Peters, No. 57 Sackville Street.

Health is most important to every woman. You cannot afford to neglect it when your neighborhood druggist can supply you with Favorite Prescription, in tablets or liquid. This Prescription is made in Dr. Pierce's Laboratory in Bridgeburg, Ont. Send 10 cents there if you want a trial package.

MRS. ROSE PETERS



Miners Held Daily Service

Daily prayer services for their safety have been introduced by miners employed at a large mine of the Valley Coal Company near Duquesne, Ill. Short services are held each morning at the bottom of the shaft before the miners enter the various rooms to perform their work, mine officials recalling the service while the men stand with uncovered heads.

Two Vicars In 104 Years

The picturesque village of Penally, on the sea coast of Pembrokeshire, has just lost its vicar, Rev. David Melville Morris, M.A., who had held office since 1873. His predecessor, the Rev. John Hughes, was vicar for fifty-four years. It must be an uncommon event for a place to have only two vicars during the space of one hundred and four years.

THE MUNICIPAL DISTRICT OF BLACKFOOT, No. 218

NOTICE is hereby given that a list of lands against which proceedings have been begun under the Tax Recovery Act, 1922, appears in the Alberta Gazette, published on the 30th day of April, 1923, and unless the amount of arrears and costs are paid on or before the 7th day of October, 1923, a certificate of title will issue to the Municipality in respect thereof.

A copy of the said list may be seen in the treasurer's office during office hours.

Dated at Gleichen this 3rd day of May, 1923.

C. B. LYNDMAN,
Treasurer.

TOWN OF GLEICHEN NOTICE

NOTICE is hereby given that all owners of Cattle, Horses or Poultry permitting same to run at large within the town will be prosecuted.

PETER MACLEAN,
Secretary-Treasurer.

The death of Major Leon Eckenfelder, one of the founders of Trochu, Alberta, and latterly an official of the Provincial Department of Agriculture, took place last week at Edmonton. Major Eckenfelder came to Alberta over twenty years ago with the colony of French aristocrats that founded the settlement of Trochu. During the great war he won much distinction, and became a Chevalier of the Legion of Honor of France.

Hall by whom the same will be settled.

Dated at Gleichen, Alberta, this 26th day of April, A. D. 1923.

S. A. HALL.
V. L. GAMBLE.

EVERYONE HAPPY

[illegible] Aug. 3rd, 1923.

P. KELLEY, ESQ.,
Gleichen, Alberta.

Dear Mr. Kelley,—

The White Leghorns arrived yesterday morning in fine shape. I can only say that I am more than pleased with them. They certainly are a fine bunch and far exceed my expectations. I think you must have robbed your own pen of good birds to send them. Also I got five eggs from the six hens yesterday. Apparently they enjoyed the trip up.

Thanks very much for your immediate attention to the matter and for the fine birds you sent.

Yours faithfully,
D. S. CUTLER.

That Alderman P. Kelley is well pleased with the results he gets from advertising in the Call is indicated by the following letter he received:

The sale of this pen of birds was brought about by an ad. he inserted in the Call to sell hatching eggs of which Mr. Kelly sold a great many. Mr. Cutler reading the ad. at Rhubey wrote asking to buy a pen, and the little eight-line ad. resulted happily for all concerned.

Mr. Kelley states that this pen was taken from his ordinary stock. His eggs, however, are from a select pen.

THE GLEICHEN CALL
